Sustainability Statement

Health, Safety, and Welfare (HSW) and energy efficiency and cost reduction are key concerns and considered priorities in all Muraflex services, product development, products and policies. All Muraflex services and products offered comply and/or follow all necessary and legal HSW measures and all necessary certifications, accreditations or compliances are sought to be acquired.

With this mission, Muraflex is:

- Greenguard certified for our demountable wall systems;
- Fully ADA Compliant for ALL of our products;
- Declare Labels for our FINO, MIMO and QUADRO lines;
- ALL Muraflex products contributes significantly in LEED points
- ALL Muraflex products contributes significantly in WELL Building Standards performance-based verification system.
- ALL Muraflex products contribute to Living Building Challenge (LBC) projects.

Furthermore, Muraflex is continuously seeking to acquire any possible accreditation and certifications, in all states and under all building codes and requirements, in order for all of our clients in any state across the United States to be able to use our products directly and without any constraints.

Muraflex will continue to develop its products to aim and contribute towards a healthier, safer and more sustainable world.
