

# REVEAL

## Product Sheet

The hallmark of REVEAL's design is its distinctive recessed reveal, running gracefully along the top and bottom profiles and extending to all sides. This detail not only enhances the visual appeal but also contributes to the system's structural integrity, creating a unified and harmonious look that blends effortlessly with any architectural style. Moreover, the reveal creates the impression that the system is floating off adjacent surfaces, adding a sense of lightness and elegance to the space.

## Extrusions

# REVEAL

## Sustainability & Finishes

### Sustainability

At Muraflex, we are dedicated to diminishing our impact on the environment. We are also committed to continually improving our procedures in terms of product development, supply, packaging and distribution in an effort to minimize our environmental footprint.

### The Finishes

Due to variances in screen calibration or print quality, finish images may not accurately represent the actual color sample.
